Software Developer for Full-Stack-Development

Bachelor's / Master's Degree or Diploma in one of the following fields of study
Computer Science, Geoinformatics, Media Informatics and Business Informatics
as well as related courses

Description

MRK Media AG was founded in 2000 and is part of the international operating MRK Group. Our focus is in the areas of information technology, telecommunications and networks as well as project management and implementation.

Your profile:

- In-depth programming knowledge in one or more of the following languages: Java / JavaEE, PL/pgSQL, Python
- Relevant knowledge and excellent handling of databases and SQL (ideally PostgreSQL)
- Several years of experience in team-based software development
- Knowledge of modelling (UML, ER model) and the use of programming patterns
- Familiarity with VCS (especially GIT)
- Knowledge of server operating systems (especially Linux/Unix) and build management systems
- Knowledge of continuous integration (GitLab, Jenkins, Hudson, etc.)
- Knowledge of virtualization (Docker, Kubernetes, Micro-Services, etc.)
- Interest in geodata, maps, UI & UX
- Analytical thinking skills and independent working methods
- Excellent team and communication skills

We offer you:

- Collaboration on activities in stimulating projects, also at an international level.
- Work in a dynamic and competent team.
- Possibility of professional growth
